

The college has a well equipped social science laboratory which gives knowledge of Geography, History, Civics, Economic and Disaster Management. It is well equipped with equipments, apparatus and material required for the subject, which helps in creating and maintaining a much needed congenial atmosphere for effective learning

The social sciences laboratory can be used as a place for social studies learning activities to take place in practice with special equipment that is not easily presented in the classroom so that the learning process can run more effectively. The laboratory method in the social studies involves the employment of source materials, supplementary references, mechanical devices, audio-visual aids, and many other life-like activities to supplement textbook instruction, and to increase the effectiveness of presentation and mastery.
