

A workshop is a method of teaching which is a mix between studio practice and a lecture. Workshops typically take place with a small group of students (usually between 5 and 30). Workshops are designed to enhance the students' practical skills, and to teach them about the theory and context behind such practice.

Teacher Training Workshops provide overall continuous growth opportunities to the teachers to make the best use of their abilities. Workshops provide a chance to interact with experts from the specific field. Discussing about the relevant topics of the particular subject, students tend to learn about the latest information and new skills related to the concerned subject.
